

Florentina Petica

Front-end Developer

My passion for web development started with the first "Hello World" and my main focus is on front-end development but with a good knowledge of back-end. I always seek to learn new things and surpass my personal best and as a front-end developer, I can always challenge myself to learn new technologies and also improve my current skills.

WORK EXPERIENCE

Front-end Developer Intern WeSolve Aps

03/2022 - 05/2022

Copenhagen, Danmark

In innovative company that focuses on improving communities by promoting sustainability and boost the quality of life and well-being.

Achievements/Tasks

- I am developing the front-end of a web app for a municipality, where the citizen can send feedback, complaints or propose ideas on how to improve the public transportation and services.
- The technologies I am using for developing the feature for WeSolve are Angular, TypeScript, Bootstrap and with Figma I could follow the agreed design.
- The experience is all in all meaningful for me because I was developing a real solution that could improve and grow sustainability in the targeted city, while also developing my skills as a front-end developer.

Medhjælper Løgismose Meyers A/S

12/2018 - 04/2022
